Re: Patents on Animals

It would be an insult to our nation, which we consider to be one of humane individuals, to issue patents on sentient beings.

Animals are conscious beings who feel pain and can suffer - they should not be treated as machines.

Please honor AAUS's Request for Reexamination of Patent No. 6,924,413. If animals can be patented in America, it is a disgrace to our country. I want other countries to know we are a compassionate country and maybe someday this will be a less violent world.

I AM AGAINST your agency
issuing PATENTS ON ANIMALS
ANIMALS ARE NOT INVENTIONS!

Please REEVALUATE PATENT
6,924,413
THANK you for RECONSIDERATION
